**Subject:** Re: Pipe Bridge Data and GK Conf call

I'll be there at 10. The surveyors will have a topographic survey done of the crossing area COB tomorrow or early Saturday.

I answered the first three bullets. Did we get the surveyors to get the dimensions for bullets 4 and 5?

Also, there is a conf call with Deere and Ault to discuss the current plans for the GK rehab work tomorrow at 10am. I forget which one of you was taking lead on GK adit, but I hope you can be part of the call. If not, please suggest an alternative time.

**Subject:** Pipe Bridge Data

Hi Matt

We need a few more bits of data on the pipe bridge.

- HDPE pipe diameter and wall thickness
- Steel pipe diameter and wall thickness (0.25" based on penny??)
- Steel pipe length

- Distance between gabions (face to face)
- Depth to channel from bottom of pipe (say 5 locations)

I would also like to chat about the plans and current status on site. Are you and Chris available tomorrow? Any time before 4pm is fine with me.

Christoph
